

# Government of the Kaliningrad Region

The Government of the Kaliningrad region in the name of the Ministry for housing and communal services and construction supports the project. It implements national policies on the development and implementation of energy saving strategies in the housing sector. Most of new constructions in the Kaliningrad region are made with the introduction of new energy saving technologies and techniques. The Ministry can contribute a very extensive experience in the relevant fields and add highly valuable experience to all aspects of the project.
